

Technical Data Sheet

CASTROL ENGINE CLEANER

DESCRIPTION:

Castrol Engine Cleaner is a general purpose emulsion degreaser.

APPLICATION:

- Castrol Engine Cleaner has a very wide range of applications in the areas of production engineering, mining, garages and vehicle maintenance, for the cleaning of painted and unpainted surfaces soiled with oil, grease, soft carbon and bitumastic materials.
- Castrol Engine Cleaner can be applied by dip brush or spray.
- It should be applied neat to the surface to be cleaned, allowed to soak and penetrate for a short time, then washed off with a water jet.
- An emulsion of between 10% - 20% of Castrol Engine Cleaner in water may be used for the removal of light coatings, depending on the soil to be removed.

PRECAUTIONS:

Castrol Engine Cleaner should not be exposed to temperatures in excess of 43°C. Consult Castrol's Technical Department for health and safety data.

BENEFITS:

- Safe on painted surfaces.
- Highly effective in removing a mix of oil, grease and carbon.
- Excellent storage stability under both hot and cold conditions.
- No objectionable odour.
- 500 ml pack fitted with spray nozzle for easy and efficient application.
- Has the ability to emulsify soils into solution for effective removal.
- Excellent emulsion stability in hard or soft water, ensuring free rinsing.
- Non-corrosive to ferrous and non-ferrous metals.

TYPICAL CHARACTERISTICS:

Castrol Engine Cleaner	
Product code	45011
Appearance	Pale green
Liquid density at 20°C	0.813
pH (10% Solution)	8.7
Flash point °C minimum (IP 303)	43
